DRYERS

KARE  
GENERATION

We present the Fagor KARE generation of dryers. An advanced series of machines designed to increase user satisfaction and attract new customers to your laundry business.

With the KARE generation, all of our innovative features are within your reach. Its user-friendly technology, ergonomic design, and outstanding efficiency guarantee the ultimate care for clothes.

At Fagor, we care about what matters: you, your business, and the environment.

## TP2 - Touch Plus Control

- User friendly and totally programmable microprocessor with a 7" **touchscreen**
- **USB Connection.** PC software free of charge for programming, traceability, data analysis.
- You can program time of the day promotions and discounts automatically.
- **Videos shown on display:**  
ads, instructions (useful for coin laundry)

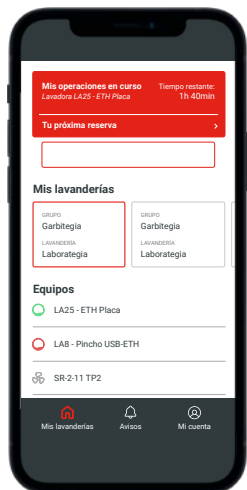

### M programmer

Also available a simple and economic control. Programmable with the external console (optional) or easy display (optional).

**Touch Plus Control** is the most advanced control on the market. Its new technology and large touch screen will increase user satisfaction and attract new customers.

A connected world  
of benefits

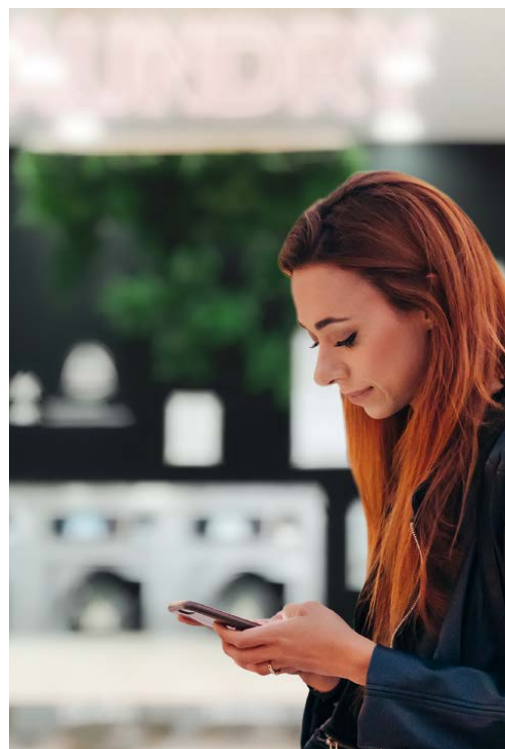

For your self-service  
business

- Monitor the proceeds, the programs, the operation, the traceability...
- Download all the data for analysis.
- Create as many pricing plans as you wish.
- Monitor the operation of your machines with statistics.
- Avoid travel.
- Gain customer loyalty.

On the palm of  
the user's hand

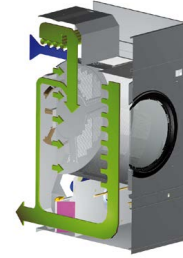

- Download the app.
- Find the nearest laundromat
- Consult availability and book machines.
- Pay from your mobile.
- Enjoy your free time until your notification arrives.
- Get news and discounts.
- Monitor your activity.

## Efficiency

- **Thermal insulation**  
Insulated panels to avoid loss of heat
- **Air Re-Cycle**  
Efficient air recovery system. Short drying times, less energy consumption.
- **Efficient Dry**  
Intelligent humidity control.
- **Drum inlet temperature control**  
A more accurate temperature control in the drum.
- **Full Flow**  
New "optimized" system of mixed airflow.
- **Double Flow**  
Axial radial airflow in DYNAMIC, COMFORT and HEAT PUMP.

FAGOR dryers provide the most efficient features to reduce energy consumption.

Temperature

Air flow

Cycle time

Machine design

100% Efficiency

## Versatility

- **Wet Cleaning**  
Possibility to create different phases per program with its customized parameters
- **OPL <> Coin laundry**  
Standard OPL model, easily adjust to coin laundry
- **Make to order:** customization  
New possibility to customize the machines from factory with the available options
- **OPTIONAL**  
Stainless-steel front panel.  
Coin kit.

FAGOR dryers are specially designed to work in coin laundry businesses.

### Coin / Token

**All models** are easily adjustable from OPL to COIN, simply by adding a coin kit.

### Payment systems

#### Open System

Domus equipment is prepared to work with any external payment system.

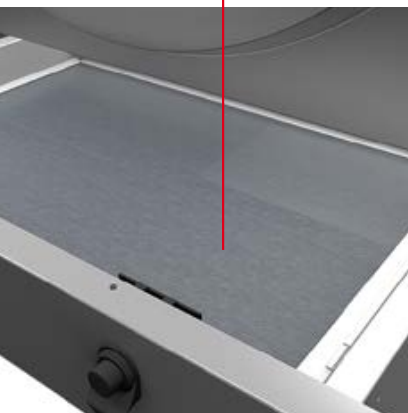

## Outstanding features

The most advanced technology in many standard features

**Big lint filter**  
made of stainless steel

**Sleek design**  
Outer panels in elegant  
Skin Plate finish.

**Stainless steel drum**  
as standard except  
ESSENTIAL range

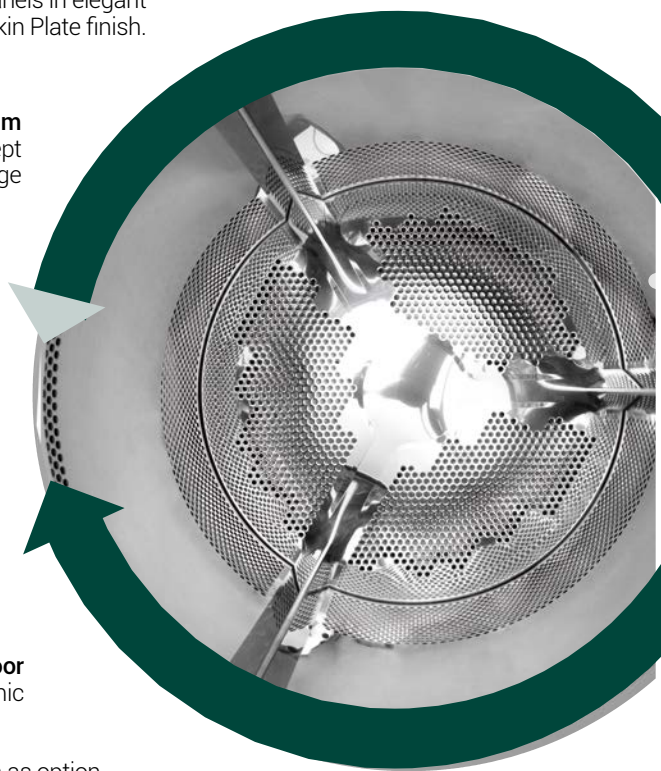

**Reversing drum action**  
as standard

**Frequency inverter**  
as standard

**Intelligent moisture control**  
Energy savings,  
reduced drying time

**Large loading door**  
Elegant & ergonomic

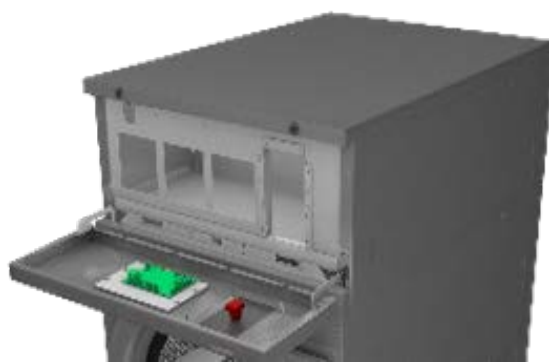

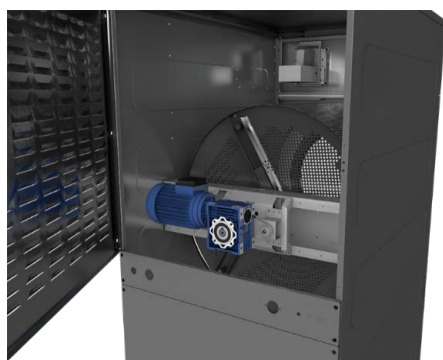

**SFEX fire suppression** as option.  
Maximum safety in case of fire

## Maintenance

FAGOR dryers require fewer maintenance and repair costs because they are made with high-quality components and parts, making your business easier.

- **Easy access to parts**  
Dryers are designed to offer an easy maintenance and reparability
- **Hinged panel**  
Easy and ergonomic access to control panel parts
- **Technical menu**  
Machine monitoring, machine error warning, management for traceability and statistics.  
Remote desk and data recovery for technicians and maintenance, software update, etc.
- **Equivalent parts**  
Most key parts are the same for all models

ADVANCE +

## The most efficient drying system on the market

Since dryers are one of the most energy-consuming machines in modern laundries, Fagor Professional has created the Advance Plus range, which features one of the most efficient drying systems on the market. This range will not only help protect the environment, but it will also reduce your costs by **up to 40%**.

ADVANCE

## Efficient technology, advanced drying

The Advance range is ideal for those looking for high-performing, efficient, and quality dryers. The Advance machines meet all the requirements: the latest control technology, robustness, advanced drying functions, and self-diagnosis to optimize maintenance times.

CONCEPT

## The perfect balance between quality and price

Fagor Professional designed the Concept range for those looking for the best dryer with easy operation, no complications, and simple maintenance. The models are ready with high-quality features as standard, and they include EASY control.

Economic Line

## Simple, with the same design and robustness

This range is for clients who require a more affordable dryer with high performance and drying quality without compromising robustness.
